

Greenview

Keys

Specialising in mental health needs,
learning disabilities and autism

8 Ensuite Bedrooms

Mixed Gender - 18 - 65 years old

Coleshill Rd, Marston Green, Birmingham, B37 7HT

Greenview is a residential service supporting up to eight adults with mental health needs, learning disabilities and autism. Located within easy reach of local amenities and transport links, the service offers a supportive and well-connected environment where individuals can build confidence while remaining engaged with their community.

At Greenview, support is centred around a person-led approach, with a strong focus on promoting independence and enabling individuals to take control of their own journey.

Using tools such as the Recovery Star and Spectrum Star, the team works collaboratively with each person to set meaningful goals, track progress and develop personalised care plans that reflect their strengths, preferences and aspirations. Regular reviews ensure support remains responsive and aligned to each individual's growth.

The service offers a mix of self-contained flats and shared spaces, creating a flexible environment that supports both independence and community living.

With spacious communal areas, a sensory room and a large garden for relaxation and activities, Greenview provides a comfortable, homely setting where individuals can develop life skills, build independence and enjoy everyday life.

Connected Support

Keys provides support for children, young people and adults from our national network of **Care, Education and Health** services, including specialist schools, alternative learning solutions, children's homes, adult residential, supported living and neurodevelopment services.
