

Church Road

Keys

Specialising in acquired brain injuries

8 Bedrooms

Mixed Gender

Poole, Dorset

Located in Poole, Dorset, close to local amenities, transport links and community facilities, the service provides a safe and structured environment where people are supported through tailored, goal led rehabilitation, designed around their personal aspirations to enable them to focus on neuro-rehabilitation and regaining independence.

Support includes access to specialist therapies such as speech and language therapy (SALT), occupational therapy, physiotherapy and neuro-psychology, alongside emotional, social and daily living skills development.

Each person is supported by a dedicated key worker, ensuring a consistent, person-centred approach that adapts to their changing needs.

The home offers a mix of en-suite bedrooms and self-contained flats, supporting individuals at different stages of their journey.

This creates a pathway towards greater independence, within a comfortable and accessible environment, while remaining connected to the local community.

Connected Support

Keys provides support for children, young people and adults from our national network of **Care, Education and Health** services, including specialist schools, alternative learning solutions, children's homes, adult residential, supported living and neurodevelopment services.
